- jQuery
- AJAX

Experience

Frontend Developer
April 2025 - Jul 2025

Ministry of Finance

Working as a frontend developer responsible for building and maintaining web applications and MIS platforms using React, Redux-Toolkit, React-Hook-Form, Zod, Tailwind CSS, and RESTful APIs. Gained hands-on experience with real-world project workflows and collaborated using GitLab. Worked closely with the development team to deploy and improve user interfaces and optimize performance. Played a key role in modernizing legacy systems and ensuring responsive design across devices.

FullStack Externship
June 2024 - April 2025

Entire Thinkers Technology

Contributed to both frontend and backend development using Laravel, MySQL, Bootstrap, AJAX, jQuery, JavaScript, and Tailwind CSS. Developed secure and responsive web interfaces, built RESTful APIs, and collaborated with the team maintain scalable applications. Gained practical experience in real-world project workflows and version control using GitHub.
